-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7,23,25 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Boesch et al.

The language like rejection of previous claims 7,9 and 23 the previous Office action is hereby incorporated herein by reference. The limitations of new claims 25 and 26 previously appeared in claims 7 and 23 and have already been treated. Regarding the amendments and arguments made, the term 'outphasing amplifier' appears only in the preambles, and Boesch et al. meet all of the limitations of the body of the claims as previously described. Therefore Boesch et al. may be read as an outphasing amplifier in the context claimed. While the applicant has referred to an example of an outphasing amplifier that differs from the structure of Boesch et al., the applicant has indicated this example to be nonlimiting. It is not clear from the record that the commonly accepted meaning of the term 'outphasing amplifier' would exclude the structure of Boesch et al., as the latter show a plural channel amplifier arrangement where, for the same frequency signal, a different phase shift could occur in each channel and the resultant signals would be recombined out of phase.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 2817

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 & 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Boesch et al. in view of Dent et al.

The language of the like rejection of the previous Office action is hereby incorporated herein by reference; no arguments specific to this rejection have been presented.

Claims 1-6 and 10-22 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
